

## **ROW YOUR OWN ITINERARY**

**SUBJECT TO CHANGE BASED ON YOUR EXACT PROVISIONS – FULLY STAFFED WITH 5-6 GUIDES OR THE MINIMUM 2 GUIDES DICTATES THE EXPECTATION FOR GROUP PARTICIPATION IN CAMP SET UP, MEAL PREP AND CLEAN UP.**

**Pre-Launch Day** - Meet at Corn Creek at 8:30PM (unless otherwise arranged with direct communication with LCTA) We advise arriving earlier to get your boat in the water and get a campsite at the campground.

**Launch Morning** - Guides will have coffee and a continental type breakfast set up. Feel free to bring your own breakfast food as well. Wake up and rig boats before a longer trip orientation meeting and heading downstream. Day 1 has a few fun class II and III rapids. Mid-day stop for lunch on some riverside beach. Mid-afternoon the group should arrive at camp for the night. After everyone helps unload and set-up the kitchen, feel free to enjoy the afternoon

**Day 2** - Guides will have coffee going by 6:30am and breakfast ready by 8am. Each trip will have a system of work groups and division of duties. Day two almost always includes Black Canyon Rapid, which is one of the newer and more exciting rapids on the Main Salmon. Most likely scout this rapid. After the Black Canyon a quick stop at the hot springs before heading towards more whitewater and camp. Ideally arrive to camp between 3:30 and 4:30pm but every day is different, depending reserved or non-reserved campsites.

**Day 3** - Similar to day two but most likely with more whitewater. This day typically includes Big Mallard, Elk Horn, Growler and a number of other very fun rapids. Day three is typically the big whitewater day. The guides will work with the group to scout rapids as needed.

**Day 4** - Similar to day three but usually a mellow whitewater day with lots of swimming and maybe some great cliff jumping spots. Today stop at Buck Skin Bills

**Day 5** - Another easy going day on the Salmon River with amazing canyon scenery and vast white sand beaches.

**Day 6 - Takeout day** - Today starts with a simpler breakfast to get on the water sooner. The group will have some fun whitewater in the morning including Dried Meat, Chittam, and Vinegar Rapids. On a typical trip we try to arrive at the takeout at Carrey Creek approximately 11am. The ramp can be crowded so early arrivals help get in before the ramp is totally crazy. Reminder to keep your cool and treat everyone on the ramp with respect and courtesy. Your vehicle should have been shuttled to the takeout from Corn Creek so upon arrival, find your rig and start to load your gear.
